MEMORANDUM FOR: DCI

SUBJECT: August PFIAB Meeting

1. Wheaton Byers advises that the August meeting of the PFIAB has been an on again-off again thing but at the moment it is on, and tentatively the Board would like to meet with you on the morning of the 7th. Much of the uncertainty stems from the Board's desire to build this session around a meeting with the President which is not yet firmly scheduled.

2. For planning purposes, Wheaton indicates that you should be prepared to address the "issues of the day". Specifically he mentioned the selection of [ ] as your Special Counsel; other topics would be your responses to the President on the recommendations of the Rockefeller and Murphy Commission reports.

3. I will keep you advised of any changes in these plans and, barring the complete cancellation of the meeting, will have a briefing book for your review by the end of next week.
